There are many aspects of the garden club that we may need assistance with such as computer skills, design skills, publicity, social media, and administrative tasks. Please let the club president know if you have any of these skills to share.

As a new member, you are required to attend monthly meetings, join a committee, and partake in our annual plant sale. The hospitality chairperson will assign you a month to volunteer to serve as a host / hostess once per year.

You will be asked to review the committees in your member yearbook once you become a member and inform the president which committee you choose to serve on.
